

The House Committee on Insurance offers the following substitute to SB 161:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 1 of Title 37 of the Official Code of Georgia Annotated, relating to governing and regulation of mental health, so as to provide for legislative intent; to provide for the establishment of a state-wide task force to develop a plan for education and services regarding autism; to provide for the membership and appointment of members of such task force; to provide for duties and responsibilities; to provide for reports and recommendations from such task force; to provide for related matters; to provide for automatic repeal; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

The General Assembly declares its intent to develop a State-wide Autism Task Force due to the increased numbers of children diagnosed with autism, a complex brain disorder with a range of symptoms and syndromes that has no cure. This task force will serve as a "brain trust" for Georgia so that it may establish policy by gathering scientific minds, researchers, physicians, and parents of children affected by this disease to create better screening, education, treatment, and services for those children and to recommend a unified and coordinated agenda for addressing autism in the State of Georgia. Early therapeutic treatment for these children has been shown to reduce costs to families and to the State of Georgia. The goal of this task force will be to review prevalence data for autism spectrum disorders, review current programs and funding, determine gaps in services and access issues, review best practices in the field, and provide for a comprehensive plan with recommendations and identifiable needs.

SECTION 2.

Chapter 1 of Title 37 of the Official Code of Georgia Annotated, relating to governing and regulation of mental health, is amended by adding a new article to read as follows:

S. B. 161 (SUB)
